CT Asia Pacific Equity Fund

Objectives and investment policy

The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the MSCI AC Asia Pacific ex Japan TR index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. Any income earned by this share class will be reinvested back into the share class to help boost the value of a share. There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years. You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point. We are not required to hold monies arising from the purchase and sales of shares in our funds in a client money bank account and hold these monies in our own bank account, utilising the FCA's permitted one-day window while carrying out a delivery versus payment transaction for the purpose of settling transactions in relation to units in the Fund. In the exceptional event that a transaction is not processed within this one-day window, any cash will be held in a client bank account. No interest will be paid to investors on cash held on a client bank account.

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Emerging Markets Risk: this Fund invests in emerging markets which are less developed and have additional legal and political risks.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.93%
