

## Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### Invesco Responsible Japanese Equity Value Discovery Fund (UK) (the "Fund") A fund of Invesco Far Eastern Investment Series (the "Company") Accumulation (No Trail) share class (ISIN: GB00B3RS8478) (the "Share Class")

The Fund is managed by Invesco Fund Managers Limited, part of the Invesco Group.

#### Objectives and Investment Policy

- The objective of the Fund is to achieve long-term (5 years plus) capital growth.
- The Fund invests at least 80% of its assets in shares of companies incorporated, domiciled or carrying out the main part of their economic activity in Japan which meet the Fund's environmental, social and governance (ESG) criteria as further detailed below.
- The Fund follows the following ESG methodology:
- Negative ESG screening: The Fund will exclude companies with a certain level of involvement in some sectors, including but not limited to weapons, coal, fossil fuels, tobacco, adult entertainment and gambling, as well as companies not compliant with the UN global compact principles. The current exclusion criteria may be updated from time to time.
- Positive ESG screening: The Fund will also increase overall exposure to those companies with sufficient practice and standards in terms of ESG and sustainable development, based on the fund manager's proprietary rating system.
- The Fund may use derivatives (complex instruments) to manage the Fund more efficiently, with the aim of reducing risk, reducing costs and/or generating additional capital or income. Such derivatives may not be fully aligned with the Fund's ESG screening criteria.
- The Fund has an active investment approach based on stock selection driven by the fund manager's assessment of valuation and ESG characteristics, and aims to discover companies that are attractively valued and demonstrate sustainable growth which are supported by sound ESG principles. The Fund is not constrained by a benchmark and has a flexible approach with no inbuilt bias to sector or company size.
- The reference to (UK) in the Fund's name only relates to the Fund's domicile and is unrelated to the Fund's objective and investment policy.
- You can buy, sell and switch shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.
- Recommendation: The Fund may not be appropriate if you plan to withdraw your money within 5 years.

#### Risk and Reward Profile

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

#### Other Risks

- The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and you may not get back the full amount invested. Over time, inflation may erode the value of investments.
- The use of ESG criteria may affect the Fund's investment performance and therefore may perform differently compared to similar products that do not screen investment opportunities against ESG criteria.
- The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of its investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Fund. The Manager, however, will ensure that the use of derivatives within the Fund does not materially alter the overall risk profile of the Fund. Such derivatives may not be fully aligned with the Fund's ESG screening criteria.
- The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.
- The Fund is invested in companies primarily domiciled in one country, any unfavourable conditions presented on them through country-specific conditions such as changes in regulation, business or economic policy may have a more negative impact on the Fund's performance than on the performance of a fund that is geographically diversified.
- A more detailed description of risk factors that apply to this Fund is set out in Section 29 of the Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
<b>Entry charge</b>	None
<b>Exit charge</b>	None
Any charges shown above are the maximum that might be taken out of your money before it is invested.	
Charges taken from the Share Class over a year	
<b>Ongoing charge</b>	1.05%
Charges taken from the Share Class under certain specific conditions	
<b>Performance fee</b>	None

- The ongoing charge figure reflects the fund management fee, a fixed fee. The figure excludes indirect ongoing costs and portfolio transaction costs.
- For a full breakdown of the fund's charges please see the Costs and Charges document on our website: [www.invesco.com/uk/icvc-charges](http://www.invesco.com/uk/icvc-charges)

## Past Performance

- Fund launch date: 07 May 1988.
- Share Class launch date: 12 June 2009.
- The base currency of the Fund is Sterling.
- Performance figures are calculated in Sterling.
- Performance figures are calculated inclusive of reinvested income and net of the ongoing charge and portfolio transaction costs.
- Past performance is not a guide to future returns.

— On 21 June 2021, the investment policy of the Fund was updated to reflect the incorporation of ESG factors in the investment decision making process.
