

## Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# Multi-Asset Protector Fund 2

A sub-fund of Ninety One Funds Series iv  
managed by Ninety One Fund Managers UK Limited

Class I Accumulation shares in sterling  
ISIN: GBOOB8FLYL21

### Objectives and investment policy

The Fund aims to provide capital growth (to grow the value of your investment) over at least 5 years, while protecting the Fund's share price from dropping below 80% of its all-time high.

The Fund invests in a broad range of assets around the world. These may include the shares of companies, bonds (or similar-debt-based assets), property, commodities, cash and alternative assets (such as infrastructure funds and private equity funds). These assets may be held directly in the asset itself (excluding commodities or property) or indirectly (e.g. using derivatives (financial contracts whose value is linked to the price of an underlying asset), exchange traded products and/or funds).

Investment in alternative assets will be restricted to UCITS funds and transferable securities.

The Fund may invest up to 85% in the shares of companies. These companies may be of any size or in any industry sector.

Bonds (or similar debt-based assets) may be in any currency, have any credit rating or be unrated, and may be issued by any borrower e.g. governments or companies.

As the current Share price moves closer towards the protected level, 80% of the highest ever Share price, the level of cash or near cash, money market instruments, deposits, and/or low risk interest bearing investments (e.g. bonds) may increase. Depending on market performance the Fund may at times be 100% invested in cash.

The Fund intends to also invest in a derivative contract which will provide further protection against the risk of a decline in the Share price below 80% of the highest price ever achieved.

The costs of providing the protection are between 0.15-0.5% and are charged to the Fund. These costs are in addition to the ongoing charge set out in the charges section.

The Fund may also invest in other transferable securities, money market instruments, cash or near cash, deposits, up to 100% in units or shares in other funds (which may be managed by a Ninety One group company, or a third party) and derivatives.

Derivatives (financial contracts whose value is linked to the price of an underlying asset) may be used in order to achieve the Fund's investment objectives or with the aim of either managing the Fund risks or reducing the costs of managing the Fund.

The Fund is actively managed. This means the Investment Manager is free to select investments with the aim of achieving the Fund's objectives.

The Fund does not use a benchmark. However, performance of the Fund may be compared against a return of 5% p.a. (GBP).

Any income due from your investment is reflected in the value of your shares.

You can typically buy or sell shares in the Fund on any business day.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and reward profile

Lower risk  
Potentially lower rewards

Higher risk  
Potentially higher rewards

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean 'risk free'.

The value of your investment and any income from it can fall as well as rise and you are not certain of making profits; losses may be made.

Environmental, social or governance related risk events or factors, if they occur, could cause a negative impact on the value of the investments made by the Fund.

The Fund appears towards the lower end of the Risk and Reward Indicator scale. This is because the mix of assets the Fund invests in, tends to produce returns which fluctuate more than those of cash funds but less than those of funds which solely invest in the shares of companies.

#### Risks that may not be fully captured by the Risk and Reward Indicator:

**Currency exchange:** Changes in the relative values of different currencies may adversely affect the value of investments and any related income.

**Derivatives:** The use of derivatives is not intended to increase the overall level of risk. However, the use of derivatives may still lead to large changes in value and includes the potential for large financial loss. A counterparty to a derivative transaction may fail to meet its obligations which may also lead to a financial loss.

**Equity investment:** The value of equities (e.g. shares) and equity-related investments may vary according to company profits and future prospects as well as more general market factors. In the event of a company default (e.g. insolvency), the owners of their equity rank last in terms of any financial payment from that company.

**Fund closure:** Where the Fund is unable to find a suitable counterparty to enable at least 80% of the value of the Fund to be protected or where only allocation to cash is feasible, the Fund may have to be closed with the proceeds returned to investors.

**Government securities exposure:** The Fund may invest more than 35% of its assets in securities issued or guaranteed by a permitted sovereign entity, as defined in the definitions section of the Fund's prospectus. Currently, it is expected that the Fund will exceed this limit in securities issued by the UK government.

**Interest rate:** The value of fixed income investments (e.g. bonds) tends to decrease when interest rates rise.

**Large cash holding:** There is a risk that the Fund may hold large proportions of cash for considerable periods of time. This may lead to the Fund underperforming those markets where it is usually expected to invest.

**Protected value:** Whilst the Fund will endeavour to protect at least 80% of its value at all times this is not guaranteed.

The full list of Fund risks are contained in the appendices of the Ninety One Funds Series omnibus prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry charge shown is the most you might pay, in some cases you might pay less.

You can find out actual entry charges from your financial adviser.

The ongoing charges figure is based on last year's expenses for the year ending 31 May 2023. The figure excludes any performance fee and portfolio transaction costs, except in the case of an entry or exit charge paid by the Fund when buying or selling units in another fund. Ongoing charges may vary from year to year.

For more information about charges, please see section 7 of the Ninety One Funds Series omnibus prospectus.

One-off charges taken before or after you invest

|              |      |
|--------------|------|
| Entry charge | None |
| Exit charge  | None |

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

|                |       |
|----------------|-------|
| Ongoing charge | 0.91% |
|----------------|-------|

Charges taken from the fund under certain specific conditions

|                 |      |
|-----------------|------|
| Performance fee | None |
|-----------------|------|

In addition there is a cost of protection for the derivative contract of between 0.15-0.5%, which is charged to the Fund.

Past Performance

Past performance is not a guide to future performance. The value of your investment and income from it may go down as well as up and you may not get back the amount you invested.

The Fund does not track an index, any index shown is for illustrative purposes only.

The past performance shown in the chart takes account of all charges except the Fund's entry charge and the past performance is calculated in sterling.

The Fund was launched on 6 July 2012 and this share class on 6 July 2012.

Practical Information

The Fund's depositary is State Street Trustees Limited. The latest published prices for shares in the Fund are available on [www.ninetyone.com](http://www.ninetyone.com). Other share classes are available for this Fund as described in the Ninety One Funds Series omnibus prospectus. UK tax legislation may have an impact on your personal tax position.

The Fund is a sub-fund of Ninety One Funds Series iv. You may switch between other Ninety One Funds Series i, ii, iii or iv sub-funds or share classes of the same sub-fund at no extra charge (unless the other share class has a higher entry charge, in which case the difference may be payable).

Details on switching are contained in section 3 of the Ninety One Funds Series omnibus prospectus. The assets of the Fund are ring-fenced and cannot be used to pay the debts of other Ninety One sub-funds in the same Ninety One Fund Series.

Ninety One Fund Managers UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Ninety One Funds Series omnibus prospectus.
