Lazard UK Omega Fund C Acc GBP

Lazard UK Omega Fund is a sub-fund of Lazard Investment Funds (the "UCITS")

ISIN: GB00B8HKDX21

This Fund is managed by Lazard Fund Managers Limited, part of the Lazard Group

Objectives and Investment Policy

Lazard UK Omega Fund (the "Fund") aims to achieve capital growth over at least 5 years. The Fund is actively managed and will invest at least 70% of its value in equities (i.e. shares) and equity-related securities (namely, common and preferred stock, including securities subject to an initial public offering, convertible securities, warrants and rights) of companies that are domiciled, incorporated, or which have a significant portion of their business primarily in the UK. The Fund will typically hold a concentrated portfolio of between 25 and 35 securities.

The Fund may also invest in companies which are listed, quoted or traded in the UK.

The Fund may invest in units or shares of other investment funds (including exchange traded funds, other sub-funds of the UCITS and/or other funds managed by the Lazard Group).

The Fund may also invest in units or shares of listed closed-ended funds which provide equity exposure consistent with the Fund's investment policy.

The Fund may invest in cash and in investments that are deemed to be nearly equivalent to cash at any time and to the extent considered appropriate in light of market conditions.

The Fund may use derivatives (which are financial contracts whose value is linked to the price of an underlying investment) for the purposes of efficient portfolio management.

You can buy or sell shares in the Fund on any day on which the stock exchange in London is open for business.

The Fund has discretion as to which investments it will hold within the limits of the Investment Objective and Policy.

Income and profits, if any, attributable to your shares will not be paid out as a dividend but will be accumulated in the Fund on your behalf and reflected in an increase in the value of your holdings.

The Fund's performance is measured against the performance of the FTSE All Share Index (the "Benchmark") which the Investment Manager has assessed to be the most appropriate Benchmark for comparison. The Benchmark is not a target for the Fund, nor is it constrained by the Benchmark as the Fund has flexibility to invest in securities and asset classes not included in the Benchmark.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within a short period of time.

Risk and Reward Profile

Please note, there are other risks that may not be reflected in the risk and reward categories above. Some of these risks are summarised below.

- There is no capital guarantee or protection of the value of the Fund. The value of your investment and the income from it can go down as well as up and you may not get back the amount you originally invested.
- In view of the concentrated nature of the Fund's investments, the level of risk is expected to be higher than for a broader based portfolio and the value may be more volatile.
- The Fund may invest in units or shares of other investment funds. Such other funds may themselves be subject to their own fees and expenses.
- The returns from your investment may be affected by changes in the exchange rate between the Fund's base currency, the currency of the Fund's investments, your share class and your home currency.

See "Risk Factors" in the UCITS' Prospectus for more information about risks.
