Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Invesco High Yield Fund (UK) (the "Fund")
A fund of Invesco Fixed Interest Investment Series (the "Company")
Y Accumulation share class (ISIN: GB00BJ04GD99) (the "Share Class")

The Fund is managed by Invesco Fund Managers Limited, part of the Invesco Group.

Objectives and Investment Policy

- The objective of the Fund is to achieve income and capital growth over the medium to long term (3 to 5 years plus).
- The Fund invests at least 80% of its assets in corporate and government debt securities (which are either non-investment grade or have no credit rating and includes contingent convertible bonds)
- The Fund may use derivatives (complex instruments) for investment purposes and to manage the Fund more efficiently, with the aim of reducing risk, reducing costs and/or generating additional capital or income.
- The Fund has an active investment approach based on fund manager judgement supported by macroeconomic and credit risk analysis with an emphasis on valuation, has a flexible approach with a preference for the high yield bond market and is not constrained by a benchmark.
- The reference to (UK) in the Fund's name only relates to the Fund's domicile and is unrelated to the Fund's objective and investment policy.
- You can buy, sell and switch shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.
- Recommendation: The Fund may not be appropriate if you plan to withdraw your money within 5 years.

Risk and Reward Profile

Lower Risk ⟷ Higher Risk

Typically lower rewards ⟷ Typically higher rewards

1	2	3	**4**	5	6	7

- The Share Class is in risk category 4 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and you may not get back the full amount invested. Over time, inflation may erode the value of investments.
- As one of the key objectives of the Fund is to provide income, the ongoing charge is taken from capital rather than income. This can erode capital and reduce the potential for capital growth.
- The Fund is theme-based or invests in a specific sector or a small number of sectors and/or industries. Investors should be prepared to accept a higher degree of risk than for a fund that is more widely diversified across different sectors/industries.
- The debt securities that the Fund invests in may not always make interest and other payments and nor is the solvency of the issuers guaranteed. Market conditions, such as a decrease in market liquidity, may mean that the Fund may not be able to buy or sell debt securities at their true value. These risks increase where the Fund invests in high yield, or lower credit quality, bonds.
- The Fund may invest in contingent convertible bonds which may result in significant risk of capital loss based on certain trigger events.
- The Fund has the ability to make use of financial derivatives (complex instruments) which may result in the Fund being leveraged and can result in large fluctuations in the value of the Fund. Leverage on certain types of transactions including derivatives may impair the Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Fund not to achieve its intended objective. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Fund being exposed to a greater loss than the initial investment.
- The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.
- The Fund's performance may be adversely affected by variations in interest rates.
- The Fund is invested in perpetual bonds (bonds without a maturity date) which may be exposed to additional liquidity risk in certain market condition, and in particular, stressed market environments. This would have a negative impact on the value of these investments which in turn, would have a negative impact the Fund's performance.
- A more detailed description of risk factors that apply to this Fund is set out in Section 29 of the Prospectus.

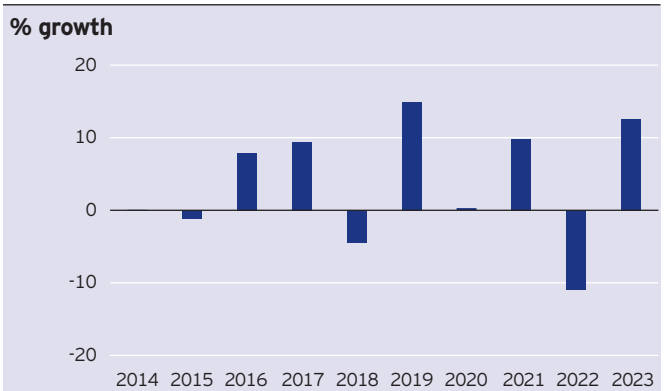
Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Any charges shown above are the maximum that might be taken out of your money before it is invested.	
Charges taken from the Share Class over a year	
Ongoing charge	0.55%
Charges taken from the Share Class under certain specific conditions	
Performance fee	None

- The ongoing charge figure reflects the fund management fee, a fixed fee. The figure excludes indirect ongoing costs and portfolio transaction costs.
- For a full breakdown of the fund's charges please see the Costs and Charges document on our website: www.invesco.com/uk/icvc-charges

Past Performance



- Fund launch date: 14 May 1999.
- Share Class launch date: 01 April 2014.
- The base currency of the Fund is Sterling.
- Performance figures are calculated in Sterling.
- Performance figures are calculated inclusive of reinvested income and net of the ongoing charge and portfolio transaction costs.
- Past performance is not a guide to future returns.
