

KEY INVESTOR INFORMATION

This document provides you with Key Investor Information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Janus Henderson

Global Responsible Managed Fund Class I Acc ISIN: GB00B4LMJ388

A sub-fund of Janus Henderson Sustainable/Responsible Funds, a UK OEIC managed by Janus Henderson Fund Management UK Limited.
Fund Currency: GBP Share Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide capital growth over the long term (5 years or more).

Investment policy

The Fund invests in shares (also known as equities) and bonds of companies and issuers, in any industry, in any country. The Fund also invests in developed market G7 government bonds. The Investment Manager seeks to identify companies with attractive long-term business models offering the potential for good capital returns over the long term. The equity element of the fund consists of one underlying allocation of UK shares and one underlying allocation of global shares. The allocation of Global shares in the Fund will invest in companies that derive at least 50% of their revenues from products and services that are considered by the Investment Manager as contributing to positive environmental or social change and thereby have an impact on the development of a sustainable global economy. The Investment Manager applies exclusionary screens (in some cases subject to thresholds) to avoid companies involved in business activities that may be environmentally and/or socially harmful, as detailed in the "Exclusionary Approach" section in the Prospectus.

The Fund may also invest in other assets including cash.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the IA Mixed Investment 40 - 85% Shares sector average, which is based on a peer group of broadly similar funds, as this limits the level of exposure the Fund may have to company shares. The Investment Manager has a high degree of freedom to choose individual investments for the Fund and to vary allocations between asset types within the constraints of the sector.

Strategy

The Investment Manager looks to construct a differentiated and well diversified global portfolio of company shares and fixed income securities (corporate and government bonds). Investee companies in the global shares allocation portion will typically be aligned with megatrends identified by the Investment Manager, these include climate change, resource constraints, growing populations, and ageing populations. The Investment Manager then, within its thematic framework of environmental and social investment themes, seeks to construct a differentiated

and well diversified global portfolio, based on the belief that superior returns can be generated by companies that tackle environmental and social challenges and have an impact on the development of a sustainable global economy. These companies should have attractive financial attributes such as persistent revenue growth and durable cash flows, as well as exhibiting strong management of environmental, social and corporate governance risks. Examples of themes the Investment Manager has identified include efficiency, cleaner energy, water management, environmental services, sustainable transport, sustainable property & finance, safety, quality of life, knowledge & technology and health. The Investment Manager also applies exclusionary screens to avoid companies involved in business activities that may be environmentally and/or socially harmful. More product-specific information, including our investment principles approach, can be found in the Document Library of the website at www.janushenderson.com. Further information as to how Janus Henderson approach ESG, including Janus Henderson's "ESG Investment Policy", can be found in the "About Us - Environmental, Social and Governance (ESG)" section of the website at www.janushenderson.com.

Other Information The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus.

Distribution policy The Fund offers accumulation shares (shares in which net income is retained within the price).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 5 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Credit Risk An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital to the Fund. If this happens or the market perceives this may happen, the value of the bond will fall.

Interest Rates When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when

interest rates rise (or are expected to rise). This risk is typically greater the longer the maturity of a bond investment.

Responsible Investment The Fund follows a responsible investment approach, which may cause it to be underweight in certain sectors (due to the avoidance criteria employed) and thus perform differently than funds that have a similar financial objective but which do not apply any avoidance criteria when selecting investments.

Derivatives The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. mitigated by taking an offsetting position in a related security), the value of your investment may be impacted by changes in exchange rates.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	0.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Past performance

Charges taken from the Fund over a year

Ongoing Charges	0.88%
-----------------	-------

Following recent changes to the GAC ("General Administration Charge"), an estimated OCF has been calculated which is more indicative of future costs.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

The past performance is calculated in GBP.

The Fund was launched in March 1996 and the share class was launched in October 2000.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

Practical information

Depository: NatWest Trustee and Depository Services Limited.

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit www.janushenderson.com. Documents are available free of charge in English and certain other languages. You may also contact the registered office of the Fund at 201 Bishopsgate, London EC2M 3AE, or your local representative office.

Tax: Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of their investment in the Fund.

Contact your adviser to discuss tax treatment, suitability of this investment, and other questions.

Notices: Janus Henderson Fund Management UK Limited may be held liable solely on the basis of any statement contained in this document

that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

The assets of each sub-fund are segregated, meaning that each sub-fund is insulated from any losses or claims associated with the other sub-funds. Further information about dealing and switching to other share classes of this Fund or other Funds in this OEIC may be obtained by visiting www.janushenderson.com or found in the Company's prospectus.

The details of the up-to-date remuneration policy of the Manager are available at www.janushenderson.com. A paper copy of the remuneration policy will be made available free of charge upon request. These include a description of how pay and benefits are worked out and the people or committee members responsible for awarding them.

The Fund and Janus Henderson Fund Management UK Limited are authorised in the UK and regulated by the Financial Conduct Authority ("FCA").

This Key Investor Information is accurate as at 20 March 2024.

KEY INVESTOR INFORMATION

This document provides you with Key Investor Information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Janus Henderson

Index-Linked Bond Fund Class I Inc ISIN: GB0007466617

A sub-fund of Janus Henderson UK & Europe Funds, a UK OEIC managed by Janus Henderson Fund Management UK Limited.
Fund Currency: GBP Share Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide an income with the potential for capital growth over the long term.

Performance target: To outperform the FTSE Actuaries UK Index-Linked Gilts greater than 5 years to maturity Index by 0.75% per annum, before the deduction of charges, over any 5 year period.

Investment policy

The Fund invests at least 80% of its assets in UK index-linked government bonds (also known as index-linked gilts) of any maturity. (Index-linked bonds pay interest which increases in line with inflation, while their capital values are not directly related to inflation and may fall in value.)

The Fund may also hold other assets including bonds of other types from any issuer, Collective Investment Schemes (including those managed by Janus Henderson), cash and money market instruments.

The Investment Manager may use derivatives (complex financial instruments) with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the FTSE Actuaries UK Index-Linked Gilts greater than 5 years to maturity Index, which is broadly representative of the bonds in which it may invest, as this forms the basis of the Fund's performance target. The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index.

As an additional means of assessing the performance of the Fund, the IA UK Index Linked Gilts sector average, which is based on a peer group of broadly similar funds, may also provide a useful comparator.

Strategy

The Investment Manager aims to provide a return in excess of the benchmark by investing primarily in UK government bonds - principally inflation-linked gilts - UK gilts and floating rate assets. The managers can also invest in other global fixed income securities with a focus on G10 government bond markets and associated fixed income derivatives, with the aim of providing diversification in the portfolio, as well as looking to enhance returns and/or manage risk.

Distribution policy The Fund offers accumulation shares (shares in which net income is retained within the price) and income shares (shares in which net income may be paid out to investors).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Credit Risk An issuer of a bond (or money market instrument) may become unable or unwilling to pay interest or repay capital to the Fund. If this happens or the market perceives this may happen, the value of the bond will fall.

Interest Rates When interest rates rise (or fall), the prices of different securities will be affected differently. In particular, bond values generally fall when

interest rates rise (or are expected to rise). This risk is typically greater the longer the maturity of a bond investment.

Country or Region If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

Derivatives and Leverage The Fund may use derivatives to help achieve its investment objective. This can result in leverage (higher levels of debt), which can magnify an investment outcome. Gains or losses to the Fund may therefore be greater than the cost of the derivative. Derivatives also introduce other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	0.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Past performance

Charges taken from the Fund over a year

Ongoing Charges	0.30%
-----------------	-------

The ongoing charges are based on actual annualised expenses for the period ending 30 June 2023. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

The past performance is calculated in GBP.

The Fund was launched in February 1994 and the share class was launched in September 2000.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

Please note that while the Fund aims to achieve its performance target before the deduction of charges, the chart and table illustrate the actual performance of the share class after the deduction of charges.

The Fund does not aim to track the performance of the benchmark.
