The fund is managed by Artemis Fund Managers Limited.

ISIN:	GB00B2PLJG05
Class:	Class I accumulation units, GBP

This key investor information document is accurate as at 15 February 2024.

Objectives and Investment Policy

Objective

To grow capital over a five year period.

Investment policy

What the fund invests in
• 80% to 100% in company shares.
• Up to 20% in bonds, cash and near cash, other transferable securities, other funds (up to 10%) managed by Artemis and third party funds, money market instruments, and derivatives.
Use of derivatives
The fund may use derivatives:
• for investment purposes to achieve the fund objective, including by taking long and short positions
• to produce additional income or growth
• for efficient portfolio management purposes to reduce risk and manage the fund efficiently.
Where the fund invests
• United Kingdom, including companies in other countries that are headquartered or have a significant part of their activities in the United Kingdom.
Industries the fund invests in
• Any
Other limitations specific to this fund
• Total short exposures to equity derivatives will not exceed 10% of the fund.
Investment strategy
• The fund is actively managed.
• The manager generates ideas from a number of sources of information, detailed financial analysis and wider economic analysis. A systematic approach is used to collect, assess, and cross-reference this information.
• A company's valuation relative to the industry in which it operates is also considered.
• While considering factors which are unique to a company, the manager seeks companies whose valuations are overly conservative in relation to their peers and that provide attractive opportunities for a future upgrade.
• Short positions can be taken where stock-specific insight identifies an over-valued company.

Benchmarks

FTSE All-Share Index TR
A widely-used indicator of the performance of the UK stockmarket, in which the fund invests. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.
IA UK All Companies NR
A group of other asset managers' funds that invest in similar asset types as this fund, collated by the Investment Association. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

Other information

Dealing frequency: Normally Monday to Friday except UK public holidays and non-dealing days. Visit www.artemisfunds.com/non-dealing-days for more information. Instructions received before 12 noon UK time will be processed at 12 noon on the same day.

Distribution policy: This is an accumulation class. Income received is reinvested in the value of the fund.

Risk and Reward Profile

• The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
• The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.
• A risk indicator of "1" does not mean that the investment is "risk free".
Risk indicator number is accurate as at: 31 December 2023.
The risk indicator may not fully take into account the following risks and the following may affect fund performance:
Market volatility risk: The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.
Currency risk: The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value
Concentration risk: The fund may have investments concentrated in a limited number of holdings. This can be more risky than holding a wider range of investments.
Charges from capital risk: Where charges are taken wholly or partly out of a fund's capital, distributable income may be increased at the expense of capital, which may constrain or erode capital growth.
Derivatives risk: The fund may invest in derivatives with the aim ofprofiting from falling ('shorting') as well as rising prices. Should the asset's value vary in an unexpected way, the fund value will reduce.
Leverage risk: The fund may operate with a significant amount of leverage. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested. A leveraged portfolio may result in large fluctuations in its value and therefore entails a high degree of risk including the risk that losses may be substantial.
Please refer to the fund's prospectus for full details of these and other risks which are applicable to this fund.
